

SC Environmental Compliance Assistance Program Simplifying Compliance

This webinar will help attendees learn the all important skill of performing PTE calculations. These calculations are the cornerstone of air permitting and determine the kind of permit that is applicable to a facility, regulations that must be complied with and the forms you have to submit. The webinar will describe what PTE is, how to identify emission sources, calculate those sources and how to use the calculations for permit recordkeeping.

Who should attend?

- Facility managers
- Consultants
- Educational institutions
- Health and safety professionals
- Economic development professionals
